## **Certification of Assembly**

To whom it may be a concern:

Viking Access Systems; a California base company in the United States and manufacturer of Automatic Gate Operators, certifies by this means that Viking Gate Operators approved by Underwriter Laboratories as of today's date are being assembled in their completeness in our facilities located on 631 Wald, Irvine California.

Viking Access Systems certifies that some of the components are from foreign origin like components in the control board or components in the wire harness (ie.).

Viking Access Systems certifies by this means that Viking Gate Operators go through a quality process of testing and inspection to ensure a quality product in the market.

Viking Access Systems facilities get inspected by Underwriter Laboratories on the quarterly bases to ensure process or assembly, quality and ensure the consumer the manufacturing process of a safe Automatic Gate Operator.

Please, feel free to contact us if you were to have questions in regards to the present document.

Sincerely,

Daniel Perez  
Chief Engineer  
Viking Access Systems
